In areas where tap water contains excessive amounts of lime, it is best to remove the Micro fabric filter from the showerhead or replace the Micro fabric filter regularly to avoid a build-up of lime in the Micro fabric filter and an interruption of water flow.

How to install the shower head (Handheld type)

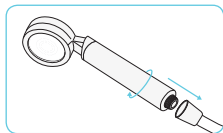

- 1 Turn off the faucet.

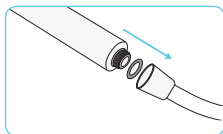

- 2 Separate shower head from hose by twisting counter clockwise.

- 3 Assemble new shower head on the hose by turning it clockwise and fasten until tight.

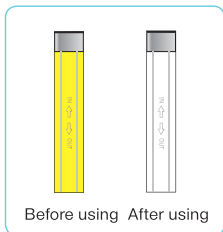

- 4 In case water leakage is found between a shower head and a hose, fasten items after putting the enclosed O-ring inside the hose.

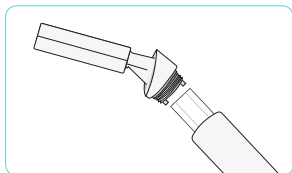

When to replace Aroma vitamin C Cartridge

- Replace cartridge when yellow color inside cartridge turns clear (approx 45~60days).
- Check cartridge if you cannot smell aroma when in use.
- Each cartridge lasts about 45~60 days depending on usage.

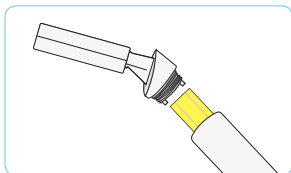

How to replace Aroma Vitamin C filter (Handheld type)

AS-9000, AS-9000R, AS-9000RB, AS-701, AS-701ST, AS-PRESTIGE

1. Unwind the top handle part of the shower head by turning it to the left and remove the used filter.

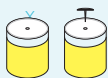

2. Insert a new cartridge back in place and assemble in reverse order.

How to use filter

ASS Normal Filter

Remove the sticker before using

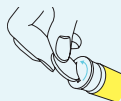

If you cannot smell the aroma, drill a hole on top of the filter with a sharp pin

ASS Screw Filter

Screw cap is located on top of the filter,

If turn left the screw, outflow discharge volume increase. Do not turn more than twice to prevent the screw cap from being disassembled.

Cautions

The life of the aroma vitamin C cartridge and micro fabric filter differs and depends on the usage of each individual.

Be sure to comply with the instructions specified below.

AROMA VITAMIN C CARTRIDGE

1. Do not use excessively at water temperature of 140°F for more than 5 minutes as cartridge may be damaged.
It is advised not to drastically switch water temperatures, but rather slowly adjust water temperature for effective use.
2. Remove the cartridge from shower head, seal it and keep it in a cool place when not in use for a long time.
3. Do not use the cartridge if damaged or broken.
4. Keep cartridge out of direct sunlight and in cool or room temperature.

MICRO FABRIC FILTER

Replace or frequently clean the micro fabric filter as debris or foreign contaminants cause water stream to be scattered.

How to clean micro fabric and watering plate.

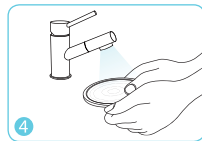

1 Turn cap to open.

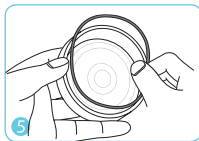

2 Separate spray plate from water cap.

3 Wash micro fabric filter in running water.

4 Wash spray plate in running water.

5 Place spray plate inside cap, insert O-ring and assemble.

6 Check flow of water.

Cautions

1. Use only tap water.
 - The use of industrial water or heavy water may cause skin damage and dermatitis.
2. Check if there is any leakage in the joint areas after installation.
 - Insert a rubber packing in the joint areas.
3. Use it for only shower and washing purpose.
4. Do not put a showerhead in the bathtub or basin for a long time.
5. Do not apply excessive force when assembling shower head. Discontinue use if the shower head has been broken.
6. Stop using if skin trouble is detected. Do not use vitamin scented cartridge if you have an allergic reaction to the fragrance.
 - If you are allergic to fragrance or Vitamin C, the use of filter may cause skin problems like hives, itching, rashes, eczema, etc.
7. Do not use benzene or paint thinner etc when cleaning the product.
8. Company is not liable for any damages as result of use of Aroma Sense shower head & Vitamin C cartridge.
